VOL. LXXII — THE STUDENT NEWSPAPER OF MANHATTANVILLE COLLEGE — ISSUE 11

## New Year, New Changes

BY JESSICA...  
EXECUTIVE...

Over the summer, Manhattanville made various changes on campus that affected the academic infrastructure around the school. Many of the changes were executed in late August, which was an inconvenience to students starting the school year.

The most obvious change to campus is the Carports, which were erected in late August. Although they are still in the process of being completed, the carports should be done within the next two to three weeks. With the completion of the Carports, the school will finally repave and paint lines on the parking lots behind Dammann and Tenney.
